RItrainPlus Community of Practice

About the CoP and RItrainPlus project

Maja Dolinar, Irena Vipavc Brvar

Slovenian Social Science Data Archives, University of Ljubljana

IASSIST 2022, 7th - 10th of June 2022, Gothenburg, Sweden

What is the RItrainPlus project?

This Project brings together, for the first time, research infrastructures, core facilities, business management Schools and European universities, in a new innovative concept to transform the access and empowerment of human resources for national and international scientific facilities in Europe.

See https://ritrainplus.eu/ for more information!

Community of Practice

We provide a space for discussing relevant issues about specific managerial and operational challenges of RIs and CFs.

Online forum offers open discussions about the challenges that arise about specific managerial and operational challenges within research infrastructures (RIs) and core facilities (CFs) as well user-generated content.

- targeted workshops
- online webinars
- group discussions

TARGET AUDIENCE: current and future managers and operators of RIs and CFs (all career stages)

Community will be lead by **CESSDA** ERIC, more specifically by Slovenian Social Science Data Archives, with a large support of **UNIMIB** and **ELIXIR/EMBL-EIB**.

Support will be offered primary by Irena Vipavc Brvar and Maja Dolinar.

Community of Practice

We provide a space for discussing relevant issues about specific managerial and operational challenges of RIs and CFs.

Activities

- **4 'CoP' workshops** will be organised by the end of 2024, preferably face-to-face

- Main online CoP content: **online webinars** within the RItrainPlus CoP will take place every 2 months (without summer months). They will occur on the second Friday of the month from 12:00 to 13:30 CET (the webinar could last up to 2 hours).
  - The first event in 2022 was in May, followed by September and November 2022.

- **Other online CoP content**: In-between the events, the online CoP will be active by enabling interaction within the online community platform.

Finding appropriate tool serving the purpose

## LIST OF DESIRED FEATURES OF A TOOL:

PURPOSE
- Developing relationships
- Sharing experiences and best practices examples
- Learning and developing practice
- Encouraging collaboration across scientific domains and country borders

- User-friendly and intuitive user interface,
- Ease of setting it up,
- Ease of access (online and mobile versions),
- Ability to set up branding,
- Ability to provide engaging learning experience (creation of engaging posts, setting up events),
- Ability to manage members,
- Ability to set up member profiles,
- Ability to message all community members (member notifications),
- Ability to set a public and private group,
- Ability to post various materials (text, links, images, audio and video, embedded live streams),
- Ability to have community posts and questions,
- Be compliant with GDPR.
