REQUEST FOR INFORMATION ON USE OF ICPSR RESOURCES

To provide funding agencies with essential information about use of archival resources and to facilitate the exchange of information about ICPSR participants' research activities, users of ICPSR data are requested to send to ICPSR bibliographic citations for each completed manuscript or thesis abstract. Please indicate in a cover letter which data were used.

DATA DISCLAIMER

The original collector of the data, ICPSR, and the relevant funding agency bear no responsibility for uses of this collection or for interpretations or inferences based upon such uses.

DATA COLLECTION DESCRIPTION

Sidney Verba, Norman H. Nie, and Jae-On Kim
POLITICAL PARTICIPATION AND EQUALITY IN SEVEN NATIONS,
1966-1971 (ICPSR 7768)

SUMMARY: This data collection consists of seven parts, individual country datasets (Austria, India, Japan, Netherlands, Nigeria, and Yugoslavia), and a comparative crossnational dataset. Personal interviews were conducted from 1966 to 1971 in seven nations, including the United States (the U.S.A. dataset can be found separately in POLITICAL PARTICIPATION IN AMERICA, 1967 [ICPSR STUDY 7015], and is included in Part 7, Crossnational File). A set of core questions was designed to ascertain political participation in both local and national Questions were constructed to measure respondents' affairs. involvement in political organizations at both the local and national levels, participation in formal and informal community groups, the extent of individual contact with public officials, attitudes toward recent political and social changes, and respondents' interest in the political process. Basic demographic data is also included. In addition, each national survey contains some items unique to that particular survey.

UNIVERSE: Universe varied by country.

SAMPLING: Sampling procedures varied by country.

NOTE: The codebooks are provided as Portable Document Format (PDF) files. The PDF file format was developed by Adobe Systems Incorporated and can be accessed using PDF reader software, such as the Adobe Acrobat Reader. Information on how to obtain a copy of the Acrobat Reader is provided through the ICPSR Website on the Internet.

EXTENT OF COLLECTION: 7 data files + machine-readable documentation (PDF) + SAS data definition statements + SPSS data definition statements

ACKNOWLEDGEMENT OF ASSISTANCE

All manuscripts utilizing data made available through the Consortium should acknowledge that fact as well as identify the original collector of the data. The ICPSR Council urges all users of the ICPSR Data facilities to follow some adaptation of this statement with the parenthesis indicating items to be filled in appropriately or deleted by the individual user.

The data (and tabulations) utilized in this (publication) were made available (in part) by the Inter-university Consortium for Political and Social Research. The data for the Cross-National Program in Political and Social Change were originally collected by Sidney Verba, Norman H. Nie and Jae-on Kim. Neither the collector of the original data nor the Consortium bear any responsibility for the analyses or interpretations presented here.

In order to provide funding agencies with essential information about the use of archival resources and to facilitate the exchange of information about ICPSR participants' research activities, each user of the ICPSR data facilities is expected to send two copies of each completed manuscript or thesis abstract to the Consortium Please indicate in the cover letter which data were used.

STUDY DESCRIPTION

The national cross-sectional study that is described in this document resulted from data collected for the "Cross-National Program in Political and Social Change." This project has been under the primary direction of Sidney Verba, Norman H. Nie, and Jae-On Kim. The "Cross-National Program" was a collaborative program of survey studies in seven nations. The countries involved were the United States, India, Japan, Austria, Nigeria, Yugoslavia, and the Netherlands. Though the project began in 1964, the data collection for the surveys took place at various times between 1966 and 1971. The sample size for the cross-section surveys ranged from 1,775 in Austria to 2,600 in the United States.

Though there were common themes and general guidelines for the development of questionnaires and survey designs for the individual countries, each survey was prepared and administered by experts and research institutes within the given country. In general, each survey can be utilized independently as a representative national cross-section survey. (See the section on SAMPLING for exceptions and qualifications.)

The studies dealt with a wide range of questions but focused most heavily on citizen involvement in political life. A number of publications have utilized these data -- some dealing with one or a few of the nations studies, others more generally comparative.

This codebook describes data utilized in a major comparative study of all seven nations, "Political and Social Stratification: A Cross-National Comparison," by Sidney Verba, Norman H Nie, and Jae-On Kim, to be published in 1978 by Cambridge University Press. This work attempts to deal comprehensively with one aspect of the larger study: the ways citizens participate politically and the processes that lead them to do so.

For a complete bibliography of works utilizing these data and more information on the nature of the "Cross-National Project" and the scholars and organizations that have been involved with it, refer to the appropriate appendices in "Political and Social Stratification."

USE OF THIS DOCUMENT

The data and variables reported in this document form only a subset of the available data. In addition to the other country files there is a SEVEN-NATION COMPARATIVE FILE that contains composite and derived variables. To trace the history of a variable back to the original survey item, it is necessary to use the documentation for the individual country files in conjunction with the COMPARATIVE document.

The documentation for each country includes the variable names that are used in this codebook; the complete text of the items as they appeared on the original surveys; and frequency distributions for each of the items.

The individual country codebooks are available in the same form as this document and are identified as the "Cross-National Program in Political and Social Change" and the appropriate nation. Complete datasets of all of the items on the individual cross-section surveys in either SPSS or BCD format are also available.

The codebook and data for the United States have been previously catalogued by the Inter-University Consortium for Political and Social Research as ICPSR Study Number 7015. A complete discussion of the United States study and substantive findings can be found in "Participation in America: Political Democracy and Social Equality," by Sidney Verba and Norman H. Nie. (New York: Harper and Row, 1972.)

FILE STRUCTURE

This document is available in machine readable form with standard carriage control and upper and lower case print. It has been formatted for $8\ 1/2$ by 11 inch forms.

The data for this file are available in two forms. an Osiris dictionary and data set. Alternatively a set of Alternatively, a file of SPSS control cards and a BCD raw data file can be obtained. Both forms use the same variable names.

Whether or not SPSS is used to analyze these data, it is important to list the SPSS control cards. Included in the control cards is an INPUT FORMAT statement, as well as a VARIABLE LIST and appropriate identifying labels. The format specification identifies the variables and their location on the raw data file.

If appropriate JCL is specified, the SPSS control file contains all of the commands necessary to generate an SPSS system file using SPSS Release 8.0 for IBM/OS systems.

Note:

The codebooks reference deck and column locations (e.g., "8:06-09"). These refer to the specifications on the original questionnaires and do NOT correspond with variable locations for the raw data file. The proper variable list and input format must be obtained from the SPSS control card file.

The raw data file is in card image.

WEIGHTING OF CASES

Since the probability of being included in a sample was not uniform for each group in all countries except Austria and Japan, the sample cases were weighted. The sample weights were assigned in such a way that the sample reproduces the population distribution (on characteristics employed as sampling criteria) and the actual size of the sample obtained.

When the selection probabilities are based on a single criterion and the completion rates do not fluctuate widely from group to group, the weights are made inversely proportional to the initial selection probabilities. Such a weighting was applied to the U.S.A., Austria, the Netherlands, and Yugoslavia. Likewise, when the selection probabilities are uniform and there is no wide variation in completion rates, no weights are applied. as was the case with Japan. However, when varying selection probabilities are combined with somewhat fluctuating completion rates, we applied the weights in such a way that both the selection rates and the completion rates are adjusted, as with India and Nigeria. The weights are reproduced in Table I.

The completion rate of interviews varied from country to country. For instance, in Yugoslavia, the completion rate was almost perfect, while in the U.S.A., owing to the quota-sampling, the completion rate was not particularly meaningful. For other countries, the following completion rates were obtained:

Austria 78% India 95% Japan 82% Netherlands 76% Nigeria 77%

The Cross-National Participation Project is a complex and multifacteted research program. As such, there were many different objectives that influenced the overall design. In each nation we generated a national representative sample of a cross-section of the citizenry, a set of mini-community samples for 60-100 communities, a sample of elites for each of these communities, and finally numerous types of information on the demography and structure of each of the communities. A detailed description of each facet of the design would take many pages. The description here will concentrate on the national cross-section samples and the factors that influenced they way in which they were drawn.

In Austria, Japan, the Netherlands, and the U.S., the cross-section samples are representative of the entire nation. In the other three nations, the samples pertain to specified sub-national regions. Due to the enormity of the cultural diversity and sheer physical size, only four states were sampled in India: Andhra Pradesh, Kujarat, Uttar Pradesh, and West Bengal. The cross-section, is however, representative of the citizenry of those four states. For similar reasons, the study was conducted in only four of the six republics of the Yugoslavian Federated Nation. The Republics were Croatia, Macedonia, Serbia, and Slovenia. In Nigeria, the situation is even more complicated. While we had originally planned a study of the entire nation, severe political tensions began to escalate rapidly as we entered the period of our actual field work. The situation degenerated, particularly in the North of the country, where violence had broken out as we were still in the field. This added to our already difficult task of obtaining interviews with women in the Moslem North, lowering the response rate to a point at which we felt unwise to employ the data from Northern Nigeria in our analysis. All the data from Nigeria reported in this work, therefore, excludes that region of the country.

In all countries except the U.S., the cross-section samples are multi-staged area probability samples to the level of the individual. Due to cost considerations and because of our long experience going surveys in this country, the U.S. sample is a multi-staged area probability sample to the block level with block quota techniques employed for the final selection of Respondent's.

The sample design began by stratifying according to region, culture, language, degree of urbanization and development, as well as other relevant characteristics as required in each nation to obtain a sample containing the full national or sub-national variation. Within each strata the Primary Sampling Units were selected with probability proportional to size. In those countries where PSU's represent relatively large areas, a second stage selection of second sampling units was drawn, once again with probability proportional to size.

There was in our design, a continuing tension between two objectives of the study: to produce a highly reliable national cross-section sample that would enable us to describe and compare participatory systems of each of the nations, while at the same time to maintain the ability to focus on local communities as the most relevant and immediate context for understanding political activity.

The first objective calls for a maximum number of sampling points with a minimum amount of clustering, while the second necessitates a more limited number of sampling points, i.e., local communities with a relatively large number of respondents from each community. We resolved the tension between these two objectives by increasing the number of interviews in each country beyond that which would normally be collected for a cross-section national sample. However, we clustered these additional interviews in that subset of our PSU's targeted as our sample of small communities. Thus, we enlarged or augmented the number of respondents interviewed in communities under 50,000 population. Although the sampling details vary from country to country, this general procedure has the following main consequences:

- 1) The additional interviews while adding somewhat to the quality and precision of the samples, do not have as much positive impact as they would have, had they been spread out over all or most of the PSU's.
- 2) The additional interviews in the small communities require weighting interviews in the large urban centers. However, in order not to misrepresent the power and efficiency of our samples, we have divided all weights by a constant so that the number of weighted respondents reported in our analyses is equal almost exactly to the number of respondents interviewed.

In addition, there were the following deviations from pure probability sampling. In India, in the sample for the state of Kujarat, the selection probabilities were increased by 50% in order to obtain an adequate sample of this small, yet politically important urban state. Similar increases in the selection probabilities were also carried out for the Republic of Slovenia and Macedonia within the Yugoslavian sample. These two republics are very small particularly in comparison to Croatia and Serbia and increases by 100% of the selection rates was necessary in order to take account of reasonable internal variation. Finally, in both Nigeria and India rural women were undersampled by substantial proportions.

The experience of both national teams suggested three main reasons for undersampling rural residents in general, all women, and particularly rural women. First, responses of the rural popalation and of women each tend to be highly homogenous in content. In the rural sectors of these nations, it is extremely difficult to gain access to the women so that interviews may even be conducted. Low literacy rates in rural areas and the absence of any form of "outside the home" social activity for women, tend to create large numbers of "don't know" and "inapplicable" responses for these segments of the population.

As in the case of prior deviation from probabilisatic selection weights, these deviations are adjusted in a similar way by sample weights during the analysis phase.

Detailed information on the Yugoslavia national sample design follows.

Since Yugoslavia is a country of different nations and of nationalities with different cultural-historical backgrounds, it was difficult to secure sample respondents that would be representative of the entire country. Therefore, the target population was initially limited to four republics -- Croatia. Macedonia, Slovenia, and Serbia -- which constitute a faitly diverse set of republics. Within each republic selected, the final sampling was done in three stages: selection of communes, selection of local communities within each commune, and individual voters from each local community. Because of the importance of communes in Yugoslavian politics, it was decided to select as many communes as possible. The number actually selected was about one-third (125 communes) of the 374 communes existing in the four republics. In each commune, three local communities were selected, and in each local community, eight voters were chosen randomly.

The selection of communes was done after stratifying entire communes in each republic by the proportion of the agricultural population. Then a systematic sample of 125 was made, giving probability of selection of each commune proportional to its relative population size. Because of the difference in the population size of these republics, it was decided to select about proportionately twice as many communes in Macedonia and Slovenia as in Croatia and Serbia to insure an adequate number of communes for the smaller republics in our sample.

The cross-section data were collected in the months of March and April, 1971, and the total number of communes, local communities, and respondents by each republic are shown below.

CROATIA	MACEDONIA	SLOVENIA	SERBIA	TOTAL

Number of Communes	29	18	24	54	125	
Number of Local Communities	87	54	72	102	375	
Respondents	696	432	576	1291	2995	

ACKNOWLEDGEMENTS

We are grateful for the initial support we received from the Ford Foundation and the Carnegie Corporation of New York. The National Science Foundation has supported not only this archiving project but various stages of data analysis. Numerous scholars and research institutes have contributed enormous energies and resources in this cooperative endeavor. They are expressly acknowledged in the substantive works stemming from this project.

Special thanks go to Ellen Clements, Barbara Pawloski, and Debra Gusnard who carried the burden of collating and typing the codebooks. James Rabjohn and Edward Hamburg were responsible for actual data preparation.

If there are questions concerning this document of its associated data, or if errors are detected, please contact:

03:33

How would you evaluate the amount of influence the residents of your community have in dealing with the problems of the community? Would you say that they have a lot of influence, a little influence, or no influence at all?

- 322 (1) No influence
- 2095 (2) A little influence
- 1176 (3) A lot of influence
- 1363 (4) DK
 - 26 (9) NA

154. RELEFFY

03:34

If you compare the amount of influence that you have on solving the problems of your community with the amount of influence that others such as local officials have, would you say that you have more influence, about the same influence, or less influence than others?

- 1044 (1) Less influence than others
- 2527 (2) The same
- 322 (3) More influence
- 1069 (4) DK
 - 20 (9) NA

	155	REPINRST
--	-----	----------

03:35

Are you interested in the economic and political affairs of your republic? Are you very interested, somewhat interested, or not at all interested?

- 1522 (1) Not at all interested
- 2149 (2) A little interested
- 1297 (3) Very interested
 - 14 (9) NA

156. RGOVPERF

03:36

How good a job do you think the republican government does in dealing with the major needs and problems of the people in this republic? Does it do a very good job, an adequate job, or a poor job?

- 238 (1) A poor job
- 2796 (2) An adequate job
- 458 (3) A good job
- 1481 (4) DK, it is difficult to say
 - 9 (9) NA

157. PRESREC

03:37

Do you know who the President of the Executive Council of your republic is? Could you tell me his name?

- 3037 (1) DK
- 586 (2) Incorrect response
- 1352 (3) Correct response
 - 7 (9) NA

03:38

Do you know who the President of the Republican Assembly is? Could you tell me his name?

- 3239 (1) DK
- 487 (2) Incorrect response
- 1254 (3) Correct response
 - 2 (9) NA

159. AUTONOMY

03:39

Some people say that the republics should have more autonomy. Others say that the federal government should make most of the decisions. What do you think?

- 1338 (1) Federal government should have more control than it does now
- 2048 (2) Republics should have more autonomy than they have now
- 1575 (3) DK
 - 21 (9) NA

160. VOTE 03:40

Now I would like to ask you some questions about voting. Do you always vote, occasionally vote, or never vote?

- 278 (1) Never
- 574 (2) Occasionally
- 4065 (3) Always, almost always
 - 58 (4) Refuses to answer
 - 7 (9) NA

161. YVOTE 03:41-42

Could you tell me the main reason why you vote?

- 278 (00) Never votes
- 2238 (11) Citizen's duty
- 147 (12) Citizen's right
- 166 (13) Habit
- 172 (14) Urged to vote
- 209 (15) Forced to vote
- 16 (16) Voting is useful
- 114 (17) Voting is necessary
- 808 (18) Voting is a means of influence
- 80 (19) Interest
- 94 (21) Satisfaction
- 72 (22) Contribution
- 128 (23) Other
- 227 (24) DK
- 233 (99) NA

162. NCANDID

In the last election for the communal assembly, was there more than one candidate for the same position? (If yes) From the point of view of the interests of this commune, was it important which candidate was elected or was there no difference between them?

03:43

- 1948 (1) Doesn't know how many candidates there were
 - 327 (2) There was only one candidate
 - 639 (3) It didn't matter which candidate was elected

962 (4) It was slightly important which candidate was elected
760 (5) It was very important which candidate was elected
299 (6) Doesn't know if it was important which candidate was elected
47 (9) NA

163. MEMBNOMC

Have you ever been a member of a committee or a a group which nominated a list of candidates for the elections of the commune, republic, or federal assembly?

- 4522 (1) No 445 (2) Yes 15 (9) NA
- 164. LVOTRMTG

03:45

Do you attend voters' meetings when candidates for elections are discussed?

- 2736 (1) No, never 1443 (2) Yes, sometimes 797 (3) Yes, frequently or always 6 (9) NA
- 165. NOMCAND

03:46

(If respondent attends electoral voters' meetings) Have you ever proposed a candidate at a voters' meeting?

2736 (0) Doesn't attend voters' meetings 1410 (1) No, has never proposed a candidate 811 (2) Yes, has proposed a candidate 25 (9) NA

166. VOTRMTGS

03:47

What about other voters' meetings? Do you attend them?

2743 (1) No, never 1584 (2) Yes, sometimes 641 (3) Yes, frequently or always 14 (9) NA In your opinion, what should a representative do if his constituents want him to argue for one position but he is in favor of another which he thinks is better for his constituents? Should a representative in such a situation behave in accordance with his voters' wishes, or should he plead for his own point of view?

- 3563 (1) He should behave as his constituents want him to
- 609 (2) He should plead for his own point of view
- 771 (3) DK
- 39 (9) NA

168. REPRESRA

03:49

Do you know who the delegate from your area to the republican assembly is? Could you tell me his name?

- 129 (6) Frequently takes part in actions and initiated action once (Coded "4" on ACTIONS and "2" on IDEAACTN)
- 127 (7) Always takes part in actions and initiated action once (Coded "5" on ACTIONS and "2" on IDEAACTN)
- 54 (8) Rarely takes part in actions and initiated action once (Coded "3" on ACTIONS and "3" on IDEAACTN)
- 159 (9) Frequently takes part in actions initiated action often (Coded "4" on ACTIONS and "3" on IDEAACTN)
- 272 (10) Always takes part in actions and often initiated actions (Coded "5" on ACTIONS and "3" on IDEAACTN)

214. LOCWORK1

05:06

Measure of respondent's participation in informally organized communal activity including taking part in informal, small-scale community actions and/or initiating such actions

- 3868 (1) Never participated (Coded "1," "2," or "9" on ACTIONS1 and "0" on IDEAACT1)
- 241 (2) Took part in action once and never initiated action (Coded "3" on ACTIONS1 and "1" or "9" on IDEAACT1)
- 425 (3) Often takes part in actions and never initiated actions (Coded "4" on ACTIONS1 and "1" or "9" on IDEAACT1)
 - 58 (4) Took part in actions once and initiated actions once (Coded "3" on ACTIONS1 and "2" on IDEAACT1)

- 118 (5) Takes part in actions often and initiated actions once (Coded "4" on ACTIONS1 and "2" on IDEAACT1)
- 272 (6) Takes part in actions often and often initiated actions (Coded "4" on ACTIONS1 and "3" on IDEAACT1)

215. COMPART

05:07

Overall measure of respondent's involvement in and initiation of community actions--formal and informal (LOCWORK1 and LOCWORK)

- 1992 (0) Never participated in any type of action
- 1629 (1)
 - 603 (2)
- 321 (3)
- 181 (4)
- 89 (5)
- 167 (6) Participated in both types of action often and often initiated actions

216. MUNICMEM

05:08

Combined measure of respondent's participation (past and present) in municipal self-government organizations (MUNICAM and MUCMEM)

- 4727 (0) Not a member of either organization (Coded "3" on MUNICAM and MUCMEM)
 - 126 (1) Member of one organization (Coded "3" or "9" on MUNICAM and "1" or "2" on MUCMEM or vice versa)
 - 97 (2) Member of both organizations (Coded "1" or "2" on both MUNICAM and MUCMEM)
 - 32 (9) Missing

Missing data "9" if coded "9" on both MUNICAM and MUCMEM

217. NMEM

05:09

Measure of number of organizations to which respondent belongs: UNIONMEM, VETMEM, CULMEM SPORTMEM

- 2727 (0) No organizational memberships (Coded "1" or "9" on UNIONMEM, VETMEM, CULMEM, SPORTMEM
- 1698 (1) Coded "2" or "3" on UNIONMEM, VETMEM, CULMEM, SPORTMEM

- 472 (2) Coded "2" or "3" on UNIONMEM, VETMEM, CULMEM, SPORTMEM
- 75 (3) Coded "2" or "3" on UNIONMEM, VETMEM, CULMEM, SPORTMEM
- 10 (4) Coded "2" or "3" on UNIONMEM, VETMEM, CULMEM, SPORTMEM

218. NACTMEM

05:10

Measure of number of active organizational memberships: UNIONMEM, VETMEM, CULMEM, SPORTMEM

- 3892 (0) No active organizational memberships (Coded "1" or "2" or "9" on UNIONMEM, VETMEM, CULMEM, SPORTMEM
- 823 (1) Coded "3" on UNIONMEM, VETMEM, CULMEM, SPORTMEM
- 231 (2) Coded "3" on UNIONMEM, VETMEM, CULMEM, SPORTMEM
- 31 (3) Coded "3" on UNIONMEM, VETMEM, CULMEM, SPORTMEM
 - 5 (4) Coded "3" on UNIONMEM, VETMEM, CULMEM, SPORTMEM

219 ORGMEM

05:11

Summary measure of organizational involvement which combines membership and degree of activity: UNIONMEM, VETMEM, CULMEM, SPORTMEM

- 2727 (1) No organizational involvement (Coded "1" or "9" on UNIONMEM, VETMEM, CULMEM, SPORTMEM
- 1165 (2) Inactive in one or more organization; active in none (Coded "2" but not "3" on UNIONMEM, VETMEM, CULMEM, SPORTMEM)
- 1090 (3) active in at least one organization (Coded "3" on UNIONMEM, VETMEM, CULMEM, SPORTMEM)

220. NACTSOLV

05:12

Measure of number of organizations which are active in the community in which respondent is an active member: UNIONPUB, VETPUB, CULPART, SPRTPART

- 4730 (0) No active memberships in active organizations (Coded "1" or "2" or "9" on UNIONMEM, VETMEM, CULMEM, SPORTMEM
 - 222 (1) (Coded "3" on UNIONMEM, VETMEM, CULMEM, SPORTMEM, and "3" on UNIONPUB, VETPUB, CULPART, SPRTPART

- 25 (2) (Coded "3" on UNIONMEM, VETMEM, CULMEM, SPORTMEM, and "3" on UNIONPUB, VETPUB, CULPART, SPRTPART
- 3 (3) (Coded "3" on UNIONMEM, VETMEM, CULMEM, SPORTMEM, and "3" on UNIONPUB, VETPUB, CULPART, SPRTPART
- 2 (4) (Coded "3" on UNIONMEM, VETMEM, CULMEM, SPORTMEM, and "3" on UNIONPUB, VETPUB, CULPART, SPRTPART

221. NMEMHELP

05:13

Measure of number of memberships in organizations which help members to contact government officials (UNIONHP, VETHELP, CULHELP, SPRTHELP)

- 3937 (0) No memberships in helping organizations (Coded "0" or "1" or "9" in UNIONHP, VETHELP, CULHELP, SPRTHELP)
 - 823 (1) Membership in one helping organization
- 188 (2) Memberships in two helping organizations
- 36 (3) Memberships in three helping organizations
 - 8 (4) Memberships in four helping organizations

222. EFFICACY

05:14

Measure of respondent's sense of politics in the local community (commune). It combines the number of ways the respondent can think of to try to prevent the passage of a regulation (COMLAW1 or COMLAW3) and the likelihood of his efforts succeeding (LOCEFF).

- 4143 (0) Politically ineffective; respondent could do nothing at all to prevent the passage of the regulation (Coded "7," "8," or "9" on COMLAW1 to COMLAW3)
 - 86 (1) One way, but very likely to be unsuccessful (Coded "1" through "6" on COMLAW1 through COMLAW3 and coded "1" on LOCEFF)
 - 0 (2) Two ways, but very likely to be unsuccessful
 - 0 (3) Three ways, but very likely to be unsuccessful
- 226 (4) One way, likely to be unsuccessful
 - 4 (5) Two ways, likely to be unsuccessful
 - 0 (6) Three ways, likely to be unsuccessful
- 351 (7) One way, depends whether successful or not
- 12 (8) Two ways, depends whether successful or not
 - 4 (9) Three ways, depends whether successful or not
- 131 (10) One way, likely to be successul
 - 4 (11) Two ways, likely to be successful
 - 1 (12) Three ways, likely to be successful

18 (13) One way, very likely to be successful 2 (14) Two ways, very likely to be successful 0 (15) Three ways, very likely to be successful; very efficacious (Coded "1" through "6" on COMLAW1 through COMLAW3 and coded "5" on LOCEFF) POLATT 05:15 Additive index of attentiveness to politics in the media using TVNEWS, INTLNEWS, YUGNEWS, LOCNEWS, NEWS 846 (0) Completely inattentive (Coded "1" on all of above variables) 779 (1)803 (2) 832 (3) 880 (4)821 (5) Very attentive (Coded "3" on all of above variables) 21 (9) Missing Missing data "9" if coded "9" on any of above variables POLINRST 05:16 Additive index of interest in politics on all three governmental levels (LOCINRST, REPINRST, YUGINRST) 1176 (0) No interest (Coded "1" on all three variables) 343 (1) 545 (2) 1289 (3) 480 (4) 489 (5) (6) Very interested (Coded "3" on all 648 three variables) Missing data "9" if coded "9" on any of above three variables KNOWLDRS 05:17

225.

Additive index of respondent's knowledge of names of Yugoslav political leaders (REPRESLC, PRESREC, PRESRA, REPRESRA, REPRESFA, PRESFEXC)

1967 (0) None correct (Coded "1" or "2" on all of above variables)

1214 (1)

223.

224.

```

541 (2) 492 (3) 332

(4)

Mising data "-9" if coded "9" on above two variables

228. WTFACTOR

05:20

WTFACT = .6. If Republic = Croatia or Republic =
Serbia, WTFACTOR = 1.2

1008 (1)

3974 (2)

CONSTRUCTED VARIABLES

PARCON Number of particularized contacts
All responses to variables LCCON, CCCON, COFFCON,
LSPCON, RFREPCON, RFOFFCON, RFSPCON, and TITOCON
were summed of codes were '2' or '3' on above
variables and '1' on REFLC, REFCC, REFCOFF, REFLSP,
REFRFREP, REFRFOFF, REFRFSP, REFTITO.

Missing values of '9' on constituent variables were categorized as '0' on PARCON.

- 2391 (0) No such contacts
- 286 (1) One contact
- 266 (2) Two contacts
- 46 (3) Three or more contacts

SOCCON Number of grp and com referent contacts

All responses to variables LCCON, CCCON, COFFCON, LSPCON, RFREPCON, RFOFFCON, RFSPCON, and TITOCON were summed if codes were '2' or '3' on above variables and if '2' or '3' on REFLC, REFCC, REFCOFF, RFLSP, REFRFOFF, REFRFSP, REFTITO. Missing values of '9' on these constituent variables were coded '0' on SOCCON.

- 2656 (0) Nonsuch contacts
- 267 (1) One contact
- 63 (2) Two contacts
- 3 (3) Three or more contacts

ELECWORK Attend election meetings and nominate candidates

Creation was as follows:

- 0 = (LVOTRMTG EQ 1 OR 9 and NOMCAND EQ 0)
- 1 = (LVOTRMTG EQ 2 AND NOMCAND EQ 1)
- 2 = (LVOTRMTG EQ 3 AND NOMCAND EQ 1)
- 3 = (LVOTRMTG EQ 2 AND NOMCAND EQ 2)
- 4 = (LVOTRMTG EQ 3 AND NOMCAND EQ 2)

Missing data coded '9' if '9' on NOMCAND

- 1643 (0) Never participate
- 661 (1) Sometimes attend, never nominate
- 185 (2) Always attend, never nominate
- 194 (3) Sometimes attend, nominate
- 291 (4) Always attend, nominate
- 15 (9) Missing

LOCWORK Participation in and initiation of actions

Created as follows:

- 1 = (ACTIONS EQ 1 OR 2 OR 9 AND IDEAACTN EQ 0)
- 2 = (ACTIONS EQ 3 AND IDEAACTN EQ 1 OR 9)
- 3 = (ACTIONS EQ 4 AND IDEAACTN EQ 1 OR 9)
- 4 = (ACTIONS EQ 5 AND IDEAACTN EQ 1 OR 9)
- 5 = (ACTIONS EQ 3 AND IDEAACTN EQ 2)
- 6 = (ACTIONS EQ 4 AND IDEAACTN EQ 2)
- 7 = (ACTIONS EQ 5 AND IDEAACTN EQ 2)
- 8 = (ACTIONS EQ 3 AND IDEAACTN EQ 3)
- 9 = (ACTIONS EQ 4 AND IDEAACTN EQ 3)
- 10= (ACTIONS EQ 5 AND IDEAACTN EQ 3)
 - 1281 (1) Never participate
 - 477 (2) Rarely participate, never initiate
 - 378 (3) Frequently participate, never initiate
 - 371 (4) Always participate, never initiate
 - 37 (5) Rarely particiapate, one time initiate
 - 77 (6) Frequently participate, one time initiate
 - 76 (7) Always participate, one time initiate
 - 32 (8) Rarely participate, often initiate
 - 95 (9) Frequently participate, often initiate
 - 163 (10) Always participate, often initiate

LOCWORK1 Participation in and initiation of smaller actions

Created as follows:

- 1 = (ACTIONS1 EQ 1 OR 2 OR 9 AND IDEAACT1 EQ 0)
- 2 = (ACTIONS1 EQ 3 AND IDEAACT1 EQ 1 OR 9)
- 3 = (ACTIONS1 EQ 4 AND IDEAACT1 EQ 1 OR 9)
- 4 = (ACTIONS1 EQ 3 AND IDEAACT1 EQ 2)
- 5 = (ACTIONS1 EQ 4 AND IDEAACT1 EQ 2)
- 6 = (ACTIONS1 EQ 4 AND IDEAACT1 EQ 3)
 - 2321 (1) Never participate
 - 145 (2) One time participate, often initiate
 - 255 (3) Often participate, never initiate
 - 35 (4) One time participate, one time initiate
 - 71 (5) Often participate, one time initiate
 - 163 (6) Often participate, often initiate

COMPART Combined participation and initiation of actions

Created as follows:

LOCWORK1 + LOCWORK

MUNICMEM Member of municipal selfgovt organizations

Created as follows:

- 0= (MUNICAM OR MUCMEM EQ 3)
- 1= (MUNICAM OR MUCMEM EQ 1 OR1 OR 3 OR 9)
- 2= (MUNICAM OR MUCMEM EQ 1 OR 2)

Missing data coded '9'.

Combined measure of respondent's past or present participation in municipal self-government organizations.

- 2836 (0) Not member of either
 - 76 (1) Member of one
 - 58 (2) Member of both
 - 19 (9) Missing

POLACT Factor scale-comm & electoral activity

A factor index of participation in electoral and communal activities. Includes MEMBNOMC, ELECWORK, VOTRMTGS, COMPART, SOCCON, LCCMEM, MUNICMEM.

Missing data coded -9999

Maximum	577.675
Minimum	-67.976
Mean	-0.012
Std Dev	100.039

NPOLSG1 Factor scale - non political self govt activity

Factor index of participation in non-political self-government organizations. Includes WRKRCMEM and HSCOMMEM.

Missing data coded -9999.

Maximum	394.473
Minimum	-43.459
Mean	0.044
Std Dev	100.038

PARCON2 Factor scale - particularized contacting

Based on variable PARCON.

Maximum	383.233
Minimum	-45.761
Mean	0.021
Std Dev	99.979

VOTE2 Factor scale - voting

Based on variable VOTE.

Maximum	44.086
Minimum	8.003
Mean	-0.005
Std Dev	100.041

NEWPART Factor scale - overall level of political activity

Higher order factoring of overall participation. Includes above four factor scales: POLACT, NPOLSG1, PARCON2, VOTE2. Missing data coded -9999.

col 135.01

Created as follows:

0 = (UNIONMEM, VETMEM, CULMEM, SPORTMEM EQ 1 OR 2 OR 9)
Addition of items if coded '3' on UNIONMEM, VETMEM, CULMEM
SPORTMEM and on UNIONPUB, VETPUB, CULPART, SPRTPART

Maximum	501.759
Minimum	-181.278
Mean	0.021
Std Dev	100.029

NACTSOLV Number of active memberships in com active orgs

2838 (0) None 133 (1) One 15 (2) Two 2 (3) Three 1 (4) Four NMEMHELP Number of memberships in helping organizations

Measure of number of memberships in organizations which help members to contact govt officials

Created from variables UNIONHP, VETHELP, CULHELP, SPRTHELP. Coded '0' of these variables equalled 0 or 1 or 9.

- 2362 (0) None
- 494 (1) One
- 113 (2) Two
- 16 (3) Three
 - 5 (4) Four

EFFICACY Likelihood of success to chng locreg

2486 (0) Could do nothing
Measure of respondent's sense of political efficacy
in the local community (commune). It combines the
number of ways the respondent can think of to try to
prevent the passage of a regulation (COMLAW1 to COMLAW3)
and the liklihood of his efforts succeeding (LOCEFF)

- 52 (1) 1 thing, very unlikely
- 136 (4) 1 thing, unlikely
- 2 (5) 2 things, unlikely
- 211 (7) 1 thing, depends
 - 7 (8) 2 things, depends
- 2 (9) 3 things depends 79 (10) 1 thing likely
- 79 (10) I CHING LIKELY
- 2 (11) 2 things, likely
- 1 (12) 3 things, likely
- 11 (13) 1 thing, very likely
- 1 (14) 2 things, very likely

POLATT Attentiveness to politics in media

Additive index of attentiveness to politics in the media using TVNEWS,INTLNEWS,YUGNEWS,LOCNEWS,NEWS. Completely inattentive scored '1' on all variables; very attentive scored '3' on the above items.

- 508 (0) Very inattentive
- 467 (1)
- 482 (2)
- 499 (3)
- 528 (4)
- 493 (5) Very attentive
- 13 (9) Missing

POLINRST Interest in politics - all govt levels

Additive index of interest in politics on all three governmental levels; includes variables LOCINRST, REPINRST, YUGINRST. Inattentive scored '1' on variables; attentive scored '3'.

706 (0) No interest 206 (1) 327 (2) 773 (3) 288 (4) 293 (5) 389 (6) Very interested 7 (9) Missing

KNOWLDRS Knows names of govt leaders

Additive index of respondent's knowledge of the names of Yugoslav political leaders. Includes variables REPRESLC, PRESREC, PRESRA, REPRESRA, REPRESFA, PRESFEXC. None correct score '1' or '2' on all above variables; all correct scored '3'.

1186 (0) None correct
