

It sometimes happens that you cannot take SNA course for various reasons. From which of your classmates (SNA course in Ljubljana) would you borrow study materials?

9.10.

Indicate your answers in the following way:

List the names of any classmates from whom you would borrow study materials; for each listed person use a number from 0 to 4 to indicate how likely you would be to borrow study materials from her/him. (**Mark 4 if it is certain** that you would borrow study materials from her/him, **Mark 0 if it is certain that you would not** borrow study materials from her/him. The more likely it is to borrow the study materials from a listed person the larger number should be used.) You can list as many names as you want.

Svoje kolege(ice) (Analiza socialnih omrežij) poznate že nekaj časa. Včasih se zgodi, da iz različnih razlogov ne morete priti na predavanja. Koga od kolegov(ic) bi prosili za zapiske?

9.10.

Na to vprašanje odgovorite tako, da zapišete priimke in imena kolegic in kolegov od katerih bi si najbolj verjetno izposodili zapiske. Za vsako osebo, ki jo boste zapisali, označite, kako verjetno bi si od nje izposodili zapiske. Uporabite lestvico od **0 (od osebe si ne bi izposodili zapiskov)** do **4 (od osebe bi si gotovo izposodili zapiske)**. Čim bolj verjetno je, da bi si od navedene osebe izposodili zapiske, tem večje število uporabite. **Zapišete lahko toliko imen kot želite.**

Which of your classmates would ask you to lend your study materials?

Mark 1 in the box next to a person's name if you would borrow study material from her/him.

Mark 0 in the box next to a person's name if you would not borrow study materials from her/him.

By putting an X in the cells of the following matrix, please indicate whether you think that people listed in each row borrow studying material from the people listed in each column.
